Gardening service offer

For all new subscriptions to the annual garden maintenance service, made between 1st April and 30th June 2022, the first three monthly fees for this service will be offered!

MAINTENANCE

Enjoy your garden in pristine condition with our professional maintenance service. We ensure the complete maintenance of your outdoor living space, from the lawn mowing to specialized services of pruning and treatment of trees, plants, flower beds, pest and disease control and biodegradable waste collection. The vast experience and knowledge of our specialized technicians and highly qualified professional gardeners will allow you to keep your garden simply immaculate. In addition, our team only uses electrical equipment to ensure noise reduction.

LANDSCAPING

Design a dream garden with the support of our professional team of architects, designers and gardeners. We will meet your vision and your needs, with the most advanced techniques and distinct and sustainable solutions, to create an outdoor living space suiting your lifestyle and that complements and enhances your home.
